

Ms. Frizzle Says "Back To School With You!"

I can't believe we're talking about back-to-school time! The marvelous Magic School Bus books transport young children into the classroom of the coolest science teacher *ev-er*, Ms. Frizzle. The Young Scientists Club has two new Magic School Bus science kits that will totally get kids in the mood to go back to school.

Magic School Bus Solar Energy to the Rescue [\(Compare Prices\)](#)

With this cool kit kids learn to harness the energy of the sun as they make a solar fan that spins, experiment with working solar panels and melt the polar ice caps. They can even use solar energy to inflate balloons!

Magic School Bus Back in Time with the Dinosaurs [\(Compare Prices\)](#)

Kids will love molding dinosaur teeth out of clay, building skeletal models and digging up dinosaur fossils.

Don't forget that you can play [Magic School Bus games](#) with your kids online for free!
