# GoodStuff

## For Dwindling Summer and Back-To-School Days

### Learn through play

Spark your child's curiosity about nature and science with the award-winning kits from the Young Scientist Club (www.kidsciencekits.com). Play memory, matching and learning games with the Animal Tracks cards ($15), or get your lab coat on for experiments in solar energy, gardening, minerals, crystals, fossils and more. It's a fun way to explore the natural world and to ease the kids back into school days.
