## YOUNG SCIENTISTS CLUB

Photo courtesy of  
Young Scientists Club

Do you have a budding young scientist in your family? The Young Scientists Club introduces their newest releases for spring of 2010 with solar energy, animal tracking and dinosaurs as themes. Recreate global warming in a bottle, or my personal favorite design your own diorama for dinosaurs. Perfect for both boys and girls ages 5 and up. The solar energy and dinosaur themes team up with Ms. Frizzle and the Magic School Bus for exciting adventures in scientific discoveries. Fasci-

nating and fun you can order your own Young Scientists Club kits at [www.kidsciencekits.com](http://www.kidsciencekits.com) or call 1-800-964-1320.
